### Description

The NEXOLIGHT Nervia Wall Light Type 10-303 brings striking design to outdoor spaces. Its clear geometric shape is turned into a characterful focal point by a mouth-blown glass tube and highlights individual architecture with depth and expression. In the smoked glass version, the light combines an E27 socket for LED lamps up to max. 20 W with an atmospheric lighting effect for facades, entrances and terraces. The light is available in anthracite grey and black.
