Year of design 2011
protection IP20
Scope of delivery LED

voltage suitability 230 - 240 Volt

Projection in cm 20

material ABS, steel cable color black 170 cm cable length switchability on the lead Wattage 5 W LED inclusive **Colour Rendering Index** >80 Luminous flux in Im 475

Color temperature in Kelvin 2,700 extra warm white

light distribution direct

Dimensions H 120 cm | B 20 cm

Description

The Foscarini Magneto Terra is a floor lamp with modern LED technology. Particularly interesting and flexible is the Magneto Terra by the magnet, which gave the light its name.

This magnet can be attached at different locations of the lamp rod. By this turn of the lamp head is fixed and can be brought over and over again in various positions. So both the light and the optics of light can be re-adjusted again and again for any current needs.

It was designed by Giulio lacchetti with a lamp body made of painted steel and ABS in 2011. The Magneto Terra is available by Foscarini in white or black. A 5 Watt LED 2700 $^{\circ}$ Kelvin is included.
