Description

The Outdoor Gregg X-Large Sospensione is the largest of the Gregg series for outdoor use. The length is 60 cm and the width 53 cm. Depending on the connection options, the lamp has a protection rating of IP44 (with plug connected) or IP65 (with clamp). With IP44 protection, it is protected against splash water from all sides and solid foreign bodies with a diameter of at least 1 mm. With IP65, the lamp is dust-tight and protected against water jets from any angle. The pendant lamp is made of white satinated polyethylene. The cable can be shortened if necessary. Also a version with a longer cable is offered.
