material	aluminum, steel
Base / Socket	E27
Switchability	on the light head
Power (max. Watt)	75 Watt
Shade diameter	13 cm
light distribution	directly
Dimensions	H 110 cm

Description

The Lumina Naomi is both a practical and an effective table lamp. These different versions are offered: a round base as a stand, a clamp, a table mount or a wall bracket. The reflector is rotatable at up to 360° and the arm is easily extendable and movable by means of different joints.

The Naomi is perfectly suitable for illuminating tables and work places. The light intensity can be regulated via on/off switch located at the light head thus being easily reachable. The Lumina table lamp is available either in black or anodised aluminium.
