Description

The Ingo Maurer YAYAHO Element 2 belongs to the low-voltage lighting system YAYAHO. This light is a cable system light. The multi-mirror reflector is rotatable. The lamp can be adjusted vertically and horizontally via the two ropes that are placed on the cable system. This lighting element can be supplied with or without mirror. This is then located above the bulb. In this version, the light is emitted over the mirror into the room by turning the reflector.
