Description

The Catellani & Smith Lucenera 504 Sospensione is a pendant lamp with a reflector. This light is available with exchangeable LEDs. There are offered different colours: with a black reflector of carbon fiber or with a white reflector made of technofiber. This lamp can be dimmed on site. By shifting the reflector on the mounting of the lamp, the radiation angle can be changed as desired. The canopy is always in the same colour as the reflector. The cable has a maximum length of 170 cm and can be shortened if necessary.
