Technical details

Country of Manufacture	 Germany
Manufacturer	less'n'more
Designer	less'n'more
protection	IP43
Scope of delivery	LED
voltage suitability	110 - 240 Volt
material	aluminum, glass, Textile
beam angle	15 - 75 degrees
Wattage	3 W
LED	inclusive
Colour Rendering Index	90
Luminous flux in lm	450
Color temperature in Kelvin	2,700 extra warm white
lamp stand dimensions	6 cm, height 3 cm
light head dimensions	3 cm
LED number	1
light distribution	directly

Description

The less'n'more Zeus Installation Light is a table lamp, which is mounted directly into the tabletop. A installed mounting plate serves as the lamp base for the recessed light. This model impresses with its flexible lamp arm which can be moved freely. Different surfaces are available.

The Zeus has a light head with a focusable lens. By screwing the lens out of the the head or in turn back again into it, the beam angle of the head can be changed between 15 and 75 degrees. The beam angle determines the angle at which the light emerges from an LED spotlight. The larger the beam angle, the larger the illuminated area, but it is also less bright because more area is illuminated.

The Zeus Recessed Light also is offered in two dimming versions: either dimmable on site with a phase dimmer or equipped with an already integrated dimmer.
