

Lumina

Eva

Oberfläche

- brass
- black

Technical details

Country of Manufacture	 Italy
Manufacturer	Lumina
Designer	Foster+Partners
Year of design	2016
Protection class / IP rating	IP20
Contents of the package	LED
voltage suitability	110 - 240 Volt
Diameter in cm	18
material	aluminum, glass
dimming	Dimmer at lamp base
Wattage	18 W
LED	inclusive
Colour Rendering Index	97
Luminous flux in lm	1,450
Color temperature in Kelvin	2,700 extra warm white
light distribution	indirectly
Dimensions	H 30 cm Ø 18 cm

Description

The Lumina Eva table lamp spreads indirect, soft and warm light. The light acts like a candle flame. A dimmer is integrated in the lamp base. The grooved ring located at the base of the lamp can be rotated up to 90 degrees to dim the light. At 0 degrees, the table light is set to standby, while turning it clockwise up to 90 degrees produces the 100% light intensity.

Foster + Partners created this lamp 2016. The standard version has an LED with 2,700 Kelvin colour temperature and is on request also available with 3,000 Kelvin. These surfaces are available for the lamp base: brass and black. All offered surfaces are anodized, i. the material is provided with a special surface treatment with an oxidic protective layer. The lamp consists of a glass cylinder with a round light base made of aluminum, in which the LED is integrated. The light is directed upwards indirectly onto a conical reflector. If you like to order this article, please specify the Kelvin colour temperature of the lamp under the item Order Review in the field Order Comment.
