Description

The Luceplan Costanza Wall Switch can be adjusted with its telescopic rod in height. The arc light is regulated with an on / off switch. It can be rotated up to almost 180 degrees on the wall bracket. While the light body is made of aluminum, the shade is available in four colours.

The lamps of this series were designed in 2008 by Paolo Rizzatto as a further development of the original Costanza. The shade has a diameter of 50 cm and a height of 35 cm and is thus significantly larger than the original Costanza shade. Apart from this lamp with switch, also a wall lamp with dimmer is on offer.
