

Foscarini

Big Bang L LED

Farbe

- red
- white

Technical details

Country of Manufacture

Manufacturer
Foscarini
Year of design
protection
IP20
Scope of delivery
LED

voltage suitability 230 - 240 Volt

material aluminum, methacrylate

cable length 450 cm

height adjustment height determinable dimming DALI dimmable

Wattage 58 W

LED inclusive

Colour Rendering Index >90

Luminous flux in Im 6,084

Color temperature in Kelvin 3,000 warm white

canopy dimensions 22 cm

Dimensions H 95 cm | B 130 cm

Description

The Foscarini Big Bang L LED is the medium-sized pendant light of this collection. It consists of superimposed methacrylate plates, which seem to be randomly arranged. The arrangement of the plates creates interesting light and shadow games.

The LED lamp is available in two colours: red and white. It can be dimmed on site. The light is emitted glare-free into the room. Enrico Franzolini and Vicente Garcia Jimenez designed this pendant lamp in 2016 according to the already known, smaller halogen light of this series. The cable with a length of 450 cm can be shortened if necessary.
