Description

The Luceplan Fortebraccio Floor is equipped with a vertical and horizontal rotating arm, which can be re-aligned any time. Overall, the lamp is 92 cm high, the arm has a length of 35.5 cm. In addition, the head can also be re-aligned as required by means of a handle on the lamp head. A switch is also located on the light head. This lamp is therefore suitable as a reading light. The Fortebraccio floor lamp is on offer in different surfaces: black soft touch, white and metal. The Fortebraccio Terra was created by the designer team Meda & Rizzatto in 1998.
