Description

The Anglepoise Type 75 Mini Lamp with Desk Clamp can be attached to all horizontal surfaces with a thickness between 0.7 cm and 6 cm. Its lamp shade can be rotated and tilted. The lamp arms can be repositioned at any time using tension spring technology. This technology ensures also that they remain in any set position. This clamp light is available in alpine white, jet black and slate grey finish. Lamp shade, lamp arms and clamp each have the matching surface. The light can be regulated via an on/off switch on the shade. Compact fluorescent lamps or LED retrofit can be used as illuminants. A table base in the matching surface is included in the scope of delivery.
