Description

The Stilnovo Oxygen S is a minimalist and elegant ceiling lamp. The diffuser inside the lampshade is made with OptiLight technology: When switched off, it appears almost transparent. As soon as the light is switched on, the lasermanufactured micro-cuts of the diffuser direct the light of the LEDs evenly and glare-free upwards and downwards. The ceiling lamp is available in white, black, azure blue and yellow. The shade is always white from the inside. The lamp is available in two sizes: with a diameter of 56 cm or 75 cm. Thanks to the IP40 degree of protection, the lamp is protected against the penetration of solid foreign bodies with a diameter of 1 mm or more. Dimming by the customer is possible, with an optionally available Casambi module the ceiling light can also be dimmed via Smartphone App.
