Color temperature in Kelvin3,000 warm whitelight distributiondirectly and indirectlyDimensionsH 32 cm | Ø 56 cm

### **Description**

The Stilnovo Oxygen W2 wall lamp is specially designed for tables or wall-mounted work tables thanks to a power cable with plug. The power cable is tensioned with a counterweight. The diffuser inside the lamp shade is made with OptiLight technology: The diffuser is engraved with laser micro incisions, which evenly deflect the light of the LEDs upwards and downwards. When switched off, the diffuser is almost invisible thanks to this technology. The wall lamp is available in white, black, yellow and azure blue. From the inside, the shade is always white. With protection class IP40, the Oxygen W2 is protected against solid foreign bodies with at least one diameter. A push dimmer is integrated on the cable of the lamp.
