Description

The Stilnovo Xilema WJ is a minimal wall light versatile with indirect lighting directed upwards. The white painted or polished aluminum body is joined to a PMMA diffuser, behind which there is a topLED circuit. Optics WallWasher for indirect lighting. The slim and elegant illuminating rod rests on a thin base fixed to the wall. A mobile pin allows to rotate it 180° horizontally, so as to direct the beam only on the portion of the ceiling that you want to illuminate. The Xilema WJ is designed to indirectly illuminate tables and/or workstations bordering walls and to indirectly illuminate ceilings. Switching on and dimming by touching a touch button.
