Description

The Marset Aura is a wall lamp with a diameter of 18 cm. The lamp shade is made of mouth-blown glass and available in these surfaces: transparent, opal, smoked glass and copper. An LED with a colour temperature of 2,700 Kelvin extra warm white is included as a light source. The lamp can be dimmed on site. The wall bracket is made of polycarbonate with a heat sink made of painted aluminum. The light is emitted from the LED back to the wall and partially reflected through the glass shade into the room.
