Description

The Marset Manhattan LED 63.5 is a wall lamp with a chrome-plated and anodised aluminum wall bracket. The white diffuser is made of polycarbonate, which has been screen-printed. The light is evenly scattered by the diffuser. The lamp is 63.5 cm long and 7.8 cm wide. With IP44 protection, the wall lamp is protected against solid components with a diameter of at least 1 mm and against splash water on all sides. The lamp can be mounted horizontally or vertically on the wall. The lamp is operated with an integrated LED, which has a colour temperature of 2,700 Kelvin extra warm white. On request, the wall light is also available with a colour temperature of 3,000 Kelvin warm white.
