

Marset

Nenufar 2 white

Technical details

Country of Manufacture	 Spain
Manufacturer	Marset
Designer	Joan Gaspar
Year of design	2013
Protection class / IP rating	IP20
Contents of the package	LED
voltage suitability	230 - 240 Volt
material	Iron, polycarbonate
Height adjustment	height determinable
Wattage	5.4 W
LED	inclusive
Color temperature in Kelvin	2,700 extra warm white
canopy dimensions	18 cm, height 4 cm
Version	white
Shade diameter	17 cm
system performance	2 x 9 Watt
Total luminous flux in lm	1,400
light distribution	directly
total height	347 cm
Dimensions	H 47 cm B 22 cm L 25 cm

Description

The outcome of the designer's arduous quest to create a fixture that seems to float on air, the Marset Nenufar 2 takes its name and its delicate shape from the water lily. This lamp consists of a chromium-plated rod with two black or white polycarbonate shades. Each disc-shaped shade is distinct, separated from the other in a way that the downward beams do not intersect or interfere, but combine for a uniform, direct beam. The result is an item that is midway between decorative and architectural, and be applied to both purposes with ease. Sober and well finished, the Nenufar utilizes top-quality materials and the power of LED to radiate an exquisite luminosity and create warm, welcoming atmospheres.

This lamp is in its element installed in a series - creating areas lit at different heights and with various combinations of discs - or on its own as a surprising, well balanced and subdued centerpiece. The lamp is on offer with one, two, or three black discs supported by a polished chrome rod. This lamp is also available in pre-set configurations of 3, 5, 7, and 9 units, to ease installation. On request, there are offered surface-mounted and recessed canopies with which the single lamps can be combined with each other.
