Scope of delivery	Leuchtmittel/ Bulb
voltage suitability	230 - 240 Volt
Depth in cm	13
material	stainless Steel, steel
dimming	dimmable on site
Dimensions	B 16 cm L 26 cm

Description

The Arturo Alvarez Gea GE06 wall lamp emits its light both upwards and downwards, where it forms a light cone. The painted stainless steel mesh of this wall lamp also allows a little light to escape. This stainless steel mesh is a translucent and flexible metal mesh, which is then molded to the desired shape and structure. The Gea GE06 by Arturo Alvarez is offered in the surfaces white and grey. On request, the lamp is also available in beige and taupe. The wall lamp is available as G9 version or LED version. The G9 version has two G9 sockets and is operated with replaceable LED retrofits. The LED version is operated with a built-in LED and has a standard colour temperature of 2,700 Kelvin extra warm white. On request, the LED version is also available with 3,000 Kelvin warm white. The G9 version has a width of 16 cm, the LED version a width of 19 cm.
