Description

The Marset Dipping Light M table lamp has a shade with several layers of colour. The shade is made of mouth-blown glass and has a diameter of 30 cm. The colour layers of the lamp shade discolour the emitted light. Even when switched off, the colour layers arranged in concentric circles are clearly visible. The table lamp is available in pearl white, blue, green, pink and amber finishes. The cylindrical base is made of brushed brass. An LED module is included as a light source. On the supply line there is a dimmer with which the lamp can be dimmed continuously from 0-100.
