

Mawa

One Piece 6 LED

Oberfläche

- bronze
- grey-metallic
- white

Technical details

Country of Manufacture	 Germany
Manufacturer	Mawa
Designer	Martin Wallroth
protection	IP20
Scope of delivery	LED
voltage suitability	230 - 240 Volt
Depth in cm	15
material	aluminum, Borosilicate glass
dimming	dimmable with a trailing edge dimmer and with a leading edge dimmer
Wattage	24 W
LED	replaced by professional
Colour Rendering Index	>90
Luminous flux in lm	1,533
Color temperature in Kelvin	2,700 extra warm white
light distribution	indirectly
Dimensions	H 4 cm B 20 cm

Description

The Mawa One Piece 6 LED is a wall lamp that emits its light upwards to the ceiling and the wall behind it. The ceiling illumination reaches evenly and deeply into the room. A cover made of borosilicate glass is integrated on the lamp, which ensures a soft light gradient. The ceiling floodlight is made from a single piece of aluminum using the folding technique. It is available in white matt, dark bronze and DB702 grey metallic surfaces. All surfaces are powder-coated. As standard, the One Piece 6 LED wall light has a colour temperature of 2700 Kelvin extra warm white. On request, it is also available with 3000 Kelvin warm white or 4000 Kelvin white. The wall lamp is dimmable on site with a leading edge or trailing edge phase dimmer. On request, it is also supplied as DALI dimmable version. The One Piece 6 LED is 14.5 cm deep and 20 cm wide.
