

## Serien Lighting Cavity Recessed L

### Oberfläche

- aluminum
- black
- bronze
- white

### Voltage

- 230 - 240
- 110 - 125

### Technical details

Country of Manufacture	 Germany
Manufacturer	Serien Lighting
Designer	Jean-Marc da Costa und Manfred Wolf
Year of design	2019
protection	IP20
Scope of delivery	LED
voltage suitability	110 - 240 Volt
Diameter in cm	13
material	aluminum
dimming	dimnable with a trailing edge dimmer and with a leading edge dimmer
Wattage	20 W
LED	inclusive
Colour Rendering Index	>95
Luminous flux in lm	2,070
Color temperature in Kelvin	2,700 extra warm white
bulb exchange	on site itself
Dimensions	H 3 cm   Ø 13 cm

### Description

The Serien Lighting Cavity Recessed L is suitable for installation in cavity ceilings. This ceiling lamp is 2.8 cm high and has a diameter of 12.5 cm. It emits its light mainly directly downwards. The LED is recessed in the lamp so that the light is shielded to the side. Part of the emitted light is reflected by the lamp itself. The Cavity Recessed L is made of aluminum and is available in black, white, aluminum gloss finish and bronze finish. The integrated LED can be replaced if necessary and is dimmable on site with a trailing edge or leading edge phase dimmer. It is supplied with a colour temperature of 2,700 Kelvin extra warm white as standard. On request, the recessed ceiling light is also available with a colour temperature of 3,000 Kelvin warm white or DALI dimmable. A driver is included in the scope of delivery.
