Description

The light is emitted by the Serien Lighting Reflex2 Ceiling M200 onto a prismatic reflector inside the lamp, from which the light is reflected into the room. The emitted, indirect light is absolutely glare-free. The reflector of the Reflex2 Ceiling M200 is available in matt white, gold, silver or white. Each reflector provides a different lighting effect of the ceiling light.

The integrated LED has a colour temperature of 2,700 Kelvin extra warm white. On request, the Reflex2 Ceiling M200 is also available with 3,000 Kelvin warm white or as a Tunable White version. With Tunable White technology, the light can be controlled from incandescent warm to cool white. On request, the lamp is also offered dimmable with DALI, 0-10 Volt or Casambi module.
