Description

The Serien Lighting Reflex2 Ceiling S150 has a rounded, white frame structure made of aluminum. The light is directed from the ceiling lamp onto a reflector, from where the light is distributed absolutely glare-free into the room. The reflector is available in matt white, gold, silver or white. Each reflector creates a different lighting mood.

Thanks to the Dim2Warm function, the Reflex2 Ceiling S150 imitates the dimming behaviour of classic incandescent lamps, which is perceived as pleasant. When dimmed down, the light not only becomes darker but also changes its colour temperature from 2,200 Kelvin extra warm white to 3,000 Kelvin warm white. On request, the lamp is also available with 2,700 Kelvin extra warm white, 3,000 Kelvin warm white, DALI, 1-10 Volt or dimmable with Casambi module.
