Description

The Serien Lighting Curling Ceiling Acryl clear / cylindrical opal S is a ceiling lamp with a shade made of clear acrylic glass. Inside the shade, a cylindrical reflector is integrated.

The Curling Ceiling Acryl clear / cylindrical opal S has a diameter of 16 cm and a height of 9 cm. The ceiling light is available with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with dim to warm function. The lamp with dim to warm function imitates the pleasant dimming behaviour of classic incandescent lamps. This means that when the light is dimmed down, it not only becomes darker but also changes its colour temperature. Thus, the colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white. The Ceiling Ceiling with a shade made of clear acrylic glass is also available with a shade diameter of 22 cm.
