Description

The Serien Lighting Curling Suspension Tube acrylic clear / cylindrical opal S sends its light directly downwards and diffuses it softly all around through the reflector. The Curling Suspension Tube is fixed to the ceiling with a chrome-plated steel tube. It has a total height of 110 cm, which can be individually determined during installation. Its acrylic lamp shade is 6 cm high and has a diameter of 16 cm.

The Curling Suspension Tube Acryl clear / cylindrical opal S is available with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with dim to warm function. The dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is often perceived as pleasant. When dimmed down, the light not only becomes darker but also changes its colour temperature. The colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white when dimmed. In addition to this pendant lamp, the Curling Suspension Tube Acryl clear / cylindrical opal M with a shade diameter of 22 cm is also available from this series.
