## **Description**

Around the Serien Lighting Curling Wall clear S, a light effect is created on the wall. The wall lamp has a diameter of 18 cm and a total depth of 9 cm. The Curling Wall clear S is offered in three versions: with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with dim to warm function. When dimmed, the lamp with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is perceived as pleasant. The light does becomes darker, but also changes its colour temperature. When dimmed, the colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white.
