

# Knapstein

## **ELVI-W**

#### Oberfläche

- chrome
- nickel

### **Technical details**

Country of Manufacture

Manufacturer

Country of Manufacture

Manufacturer

Knapstein

Knapstein

Protection

IP20

Scope of delivery

LED

voltage suitability 230 - 240 Volt

Depth in cm12materialbrassColour Rendering Index>90

**Color temperature in Kelvin** 2,700 extra warm white **light head dimensions** 9 cm, height 3 cm

**bulb exchange** at the manufacturer / at the factory

**system performance** 2 x 4.5 Watt

**Total luminous flux in lm** 926

**Dimensions** H 7 cm | B 9 cm

## **Description**

The Knapstein ELVI-W wall lamp emits its light downwards through a lens. It is always glare-free and creates a wide light cone on the wall behind the lamp. The light is emitted upwards through a cover with slits in narrow light cones. A white satinised glass filter is available as an accessory, which can be integrated on the lamp head. With the glass filter, diffuse light is emitted upwards instead. The ELVI-W is available in matt nickel and chrome. The wall light has a height of 6.8 cm and a width of 9.3 cm. Its depth is 11.5 cm. Two LEDs, each with a colour temperature of 2,700 Kelvin extra warm white, are integrated as light sources.
