## **Description**

The Knapstein ILSA-T table lamp has a rotatable and tiltable lamp head. In addition, the lamp can be realigned at any time by means of a swivel joint on the lamp arm and base. This allows the table lamp to reach a maximum projection of 60 cm. The ILSA-T can be switched and infinitely dimmed via gesture control. The sensor for gesture control is located on the head of the lamp. The table lamp is available in brass matt and matt nickel-plated surfaces.
