## Description

The Holtkötter Plano WB wall lamp has a jointed arm which can be individually adjusted. The lamp head can also be swivelled and rotated independently. This allows the light to be directed exactly where it is needed. The jointed arm has a maximum projection of 57 cm. The wall lamp is infinitely dimmable via a push button dimmer on the wall bracket. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as the light source, which can be replaced if necessary. The Plano WB wall light from Holtkötter is available in black, bronze, matt aluminum, platinum and anodised brass.
