Description

The Knapstein THEA-W wall lamp has a flexible reading arm with a maximum projection of 60 cm. The reading arm can be adjusted as required on the wall bracket or on the lamp head. The lamp can be switched and infinitely dimmed via gesture control. The sensor for gesture control is located on the lamp base. The lamp is switched on or off with a wiping hand movement in the sensor area. To dim the lamp continuously, the hand is held in the sensor area for a longer period of time. The THEA-W from Knapstein is available in matt nickel or black. The wall bracket is supplied with the matching surface for the lamp. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as a light source.
