Technical details

Country of Manufacture	 Germany
Manufacturer	less'n'more
Designer	less'n'more
Protection class / IP rating	IP43
Contents of the package	LED
voltage suitability	110 - 240 Volt
material	aluminum, concrete
cable length	275 cm
Height adjustment	height adjustable
dimming	on the lamp head
Wattage	8.4 W
LED	inclusive
Colour Rendering Index	90
Color temperature in Kelvin	2,700 extra warm white
lamp stand dimensions	23 cm
bulb exchange	on site itself
Total luminous flux in lm	900
Dimensions	H 98 - 148 cm

Description

The Less'n'more Stereo-SL is height-adjustable from 98 cm to 148 cm. The lamp can be tilted by 20 degrees at the base. The floor lamp has two lamp heads that can be rotated separately by 350 degrees. The two lamp heads of the Stereo-SL can be switched and dimmed separately. This allows the lamp to emit direct and / or indirect light at the same time. The scope of delivery includes a translucent light sail that can be placed over the lamp heads so that the light can be directed completely into the light sail. The light can also be directed into the light sail as well as downwards or upwards by adjusting the two lamp heads differently.

The element on top of the lamp heads is reminiscent of a microphone. The lamp heads and the height-adjustable lamp rod are made of solid aluminum and are available in the surfaces polished aluminum and matt black. The polished concrete lamp base has a great stability and is offered in grey, white and matt black lacquer. The Stereo-SL by Less'n'more can also be operated via a USB connection in addition to the conventional power supply.
