Technical details

Country of Manufacture	 Germany
Manufacturer	less'n'more
Designer	less'n'more
protection	IP43
Scope of delivery	LED
voltage suitability	110 - 240 Volt
material	aluminum, glass, stainless Steel
beam angle	25 - 100 degrees
cable color	black
cable length	200 cm
dimming	Push button dimmer at the light rod
Wattage	4.8 W
LED	inclusive
Colour Rendering Index	90
Luminous flux in lm	600
Color temperature in Kelvin	2,700 extra warm white
light head dimensions	7 cm
bulb exchange	on site itself
Dimensions	H max. 70 cm

Description

The Less'n'more Athene Clamp Light small A-KL1 can be clamped to tables, shelves, etc., so that its location can be changed again and again. It has a flexible lamp arm that can be stretched and bent as desired. When the lamp arm is fully extended, the lamp reaches a maximum height of 70 cm. The screw clamp is made of satinised stainless steel and is suitable for tables etc. with a thickness of 1.5 to 5.5 cm. A push button dimmer is integrated in the aluminium light rod above the clamp.

The beam angle of the Athene clamp lamp can be easily and continuously adjusted from 25 to 100 degrees. All you have to do is turn the glass lens in or out of the head. With a larger beam angle, the light is distributed over a larger area. The LED in the lamp head of the Athene clamp lamp has an output of 6 watts and a colour temperature of 2,700 Kelvin extra warm white. The lamp can also be operated via a USB connection in addition to the conventional power supply.

The Athene clamp lamp small A-KL1 is offered in the following surfaces: Aluminum and black. The lamp head has the same surface as the lamp rod. The flexible lamp arm is available in these versions: aluminum, textile black, green, anthracite, red, blue, white and brown. On request, this clamp lamp by Less'n'more is also offered with other colours for the lamp arm or the screw clamp. In addition to the Athene Clamp Light small A-KL1, the larger A-TL2 with a maximum height of 88 cm is also available.
