Technical details

Country of Manufacture	 Germany
Manufacturer	less'n'more
Designer	less'n'more
protection	IP43
Scope of delivery	LED
voltage suitability	110 - 240 Volt
material	aluminum, glass, stainless Steel
beam angle	25 - 100 degrees
cable color	black
cable length	200 cm
dimming	Push button dimmer at the light rod
Wattage	4.8 W
LED	inclusive
Colour Rendering Index	90
Luminous flux in lm	600
Color temperature in Kelvin	2,700 extra warm white
light head dimensions	7 cm
bulb exchange	on site itself
Dimensions	H max. 68 cm

Description

The Less'n'more Athene Wall Light small A-WL1 has a flexible lamp arm that can be stretched and bent as desired. In this way, the light can be adjusted again and again. At maximum extension of the arm, the lamp has a maximum height of 68 cm. The Athene wall lamp is available in these surfaces: aluminum and black. Its lamp head has the same surface as the lamp rod in each case. The lamp is offered with these colours for the flexible lamp arm: Aluminum, textile black, white, anthracite, blue, green, red and brown. An aluminum lamp head is attached to the arm of the lamp. The light source is an integrated 6 Watt LED with a colour temperature of 2,700 Kelvin extra warm white.

A push button is integrated in the aluminum light rod below the lamp arm with which the lamp can be switched and dimmed. The wall mount is made of satinised stainless steel. On request, the wall mount is also available in black or white. If required, the beam angle of the Athene Wall Light small A-WL1 can be adjusted between 25 and 100 degrees. For this, only the glass lens has to be turned into or out of the head. With a larger beam angle, the light is distributed over a larger area. In addition to the conventional power supply, the lamp can also be operated via a USB connection.

In addition, the flexible lamp arm is offered in special colours. In addition to this lamp, a larger wall lamp with a maximum height of 86 cm is also offered by Less'n'more.
