Technical details

Country of Manufacture	 Germany
Manufacturer	less'n'more
Designer	less'n'more
protection	IP43
Scope of delivery	LED
voltage suitability	110 - 240 Volt
material	aluminum, glass, stainless Steel
beam angle	15 - 75 degrees
cable color	black
cable length	200 cm
dimming	Push button dimmer at the light rod
Wattage	4.2 W
LED	inclusive
Colour Rendering Index	90
Luminous flux in lm	450
Color temperature in Kelvin	2,700 extra warm white
light head dimensions	3 cm
bulb exchange	on site itself
Dimensions	H max. 68 cm

Description

The Less'n'more Zeus Clamp Light Z-KL can be fixed in a new location at any time with its screw clamp. This clamp lamp is suitable for tables with a thickness between 1.5 cm and 5.5 cm. The flexible lamp arm can be turned and bent as desired. With a maximum projection of the lamp arm, the lamp has a height of 68 cm. The following colours are available for the flexible arm: aluminum, textile black, white, anthracite, blue, green, red and brown.

The lamp head and the rod are offered in the following surfaces: aluminum and black. The screw clamp is made of satin stainless steel. To adjust the beam angle, the glass lens is turned out of or into the lamp head. This way, the beam angle can be adjusted between 15 and 75 degrees again and again. With a larger beam angle, the light is distributed over a larger area.

The Zeus clamp lamp is operated with an integrated LED which has a colour temperature of 2,700 Kelvin extra warm white. A push button dimmer is integrated on the lamp rod above the screw clamp with which the lamp can be switched and dimmed. In addition to the conventional power supply, the lamp can also be operated via a USB connection. On request, the clamp is also available in black or white. The flexible lamp arm is also offered in other colours on request.
