Technical details

Country of Manufacture	 Germany
Manufacturer	less'n'more
Designer	less'n'more
protection	IP43
Scope of delivery	LED
voltage suitability	110 - 240 Volt
material	aluminum, glass, stainless Steel
beam angle	15 - 75 degrees
dimming	Push button dimmer at the light rod
Wattage	4.2 W
LED	inclusive
Colour Rendering Index	90
Luminous flux in lm	450
Color temperature in Kelvin	2,700 extra warm white
lamp stand dimensions	length 20, width 20 cm
light head dimensions	3 cm
bulb exchange	on site itself
Dimensions	H max. 63 cm

Description

The Less'n'more Zeus Table Light Z-TL has a flexible lamp arm that can be bent and rotated as desired. Depending on how the lamp arm is extended, the height of the lamp varies up to a maximum of 63 cm. The flexible lamp arm is available in these colours: aluminum, textile black, white, anthracite, blue, green, red and brown.

The lamp head and the lamp rod above the base are made of aluminum. They are offered in the following finishes: aluminum and black. An LED with a colour temperature of 2,700 Kelvin extra warm white is included as illuminant and can be replaced on site if required. By screwing the glass lens out of or into the lamp head, the beam angle of the light can be changed between 15 and 75 degrees. With a larger beam angle, the light is distributed over a larger area.

This lamp can be regulated via a push button dimmer on the lamp rod, which is located above the base of the lamp. The base of the Zeus table lamp is made of satin stainless steel and has a length as well as a width of 20 cm. It is shaped like a rounded V. On request, the lamp base is available in black, white or polished stainless steel. Besides the conventional power supply, the lamp can also be operated via a USB connection. On request, the Zeus table lamp Z-TL is also offered with special arm colours.
