## Athene Pendant Light A-BPL

### Oberfläche

- aluminum
- black
- white

### Kabelfarbe

- red
- black
- white

## Technical details

Country of Manufacture	 Germany
Manufacturer	less'n'more
Designer	less'n'more
protection	IP43
Scope of delivery	LED
voltage suitability	230 - 240 Volt
material	aluminum, glass, Textile
beam angle	25 - 100 degrees
height adjustment	height determinable
dimming	on site dimmable with a trailing edge dimmer
Wattage	4.8 W
LED	inclusive
Colour Rendering Index	90
Luminous flux in lm	600
Color temperature in Kelvin	2,700 extra warm white
canopy dimensions	7 cm
light head dimensions	7 cm
bulb exchange	on site itself
total height	312 cm

## Description

The Less'n'more Athene Pendant Light A-BPL has a lamp head with a diameter of 6.5 cm. The lamp head is made of aluminum and contains a focusable glass lens. The beam angle of the light can be adjusted continuously between 25 and 100 degrees by turning the glass lens out of or into the lamp head. With a larger beam angle, the light is distributed over a larger area.

The lamp head and canopy are available in the surfaces aluminum and black. The canopy has a diameter of 6.5 cm and is made of aluminum. As standard, the Athene pendant lamp is mounted on the ceiling as a surface-mounted lamp; with a mounting plate offered as an accessory, the lamp can also be mounted on a flush-mounted box. On request, the lamp is also available as a recessed lamp with a mounting plate that has a diameter of 10 cm.

The total height of the Athene Pendant Light A-BPL is a maximum of 312 cm, if required, the cable can be shortened. The cable is offered in the colours white, black and red. On request, the lamp is also available with other cable colours. As illuminant, an LED with a colour temperature of 2,700 Kelvin extra warm white is integrated. The Athene pendant lamp from Less'n'more can be dimmed on site with a trailing edge phase dimmer.
