material polymethylmethacrylate, steel

surface black cable length 250 cm

dimming on the lamp arm

Wattage 10.8 W
LED inclusive
Colour Rendering Index >90

Color temperature in Kelvin 2,700 extra warm white

light head dimensions10 cmTotal luminous flux in lm1,100Wall mount dimensions8 cmDimensionsH 94 cm

Description

The Grupa Igram Wall is a wall lamp with two lamp arms that are positioned at a 90 degree angle to each other. The horizontal lamp arm can be swivelled by 180 degrees. Both lamp heads can be rotated by 180 degrees. This allows the light to be emitted directly into the room, to the side and / or onto the wall. Diffusers made of opal polymethyl methacrylate provide glare-free light. A touch dimmer is integrated at the end of the horizontal lamp arm. The Igram wall lamp is made of matt black, powder-coated steel. Two LEDs, each with a colour temperature of 2,700 Kelvin extra warm white, are integrated as illuminants. The lamp can be connected directly to a wall connection or via a provided supply cable.
