

Bopp

Flair Pendant Lamp

Dimmbarkeit

- dimmable with a trailing edge dimmer and with a leading edge dimmer
- with Casambi module
- with ZigBee module

Technical details

Country of Manufacture	 Germany
Manufacturer	Bopp
Protection class / IP rating	IP20
Contents of the package	LED
voltage suitability	230 - 240 Volt
material	aluminum
surface	brushed aluminum
Height adjustment	height determinable
Wattage	39 W
LED	inclusive
Colour Rendering Index	80
Color temperature in Kelvin	2,700 extra warm white
canopy dimensions	21 cm
Total luminous flux in lm	5,979
total height	max. 140 cm
Dimensions	B 30 cm L 120 cm

Description

The Bopp Flair is a spirally curved pendant lamp with an integrated LED. The LED runs completely around the inside of this curved lamp made of smoothed aluminium. This illuminates the lamp itself and at the same time emits warm white light all around. The integrated LED with an output of 39 watts has a colour temperature of 2,700 Kelvin extra warm white. The Bopp Flair is 120 cm long, 30 cm wide and is suspended with three cables from a canopy with a diameter of 20.6 cm and a height of 4 cm. The height of the Bopp Flair can be adjusted by shortening the cables to a maximum of 140 cm from the ceiling to the lower edge of the lamp. The lamp is available in three versions: dimmable via the existing house electrics with a trailing edge and / or leading edge phase dimmer (not included in the scope of delivery), with Casambi module or with ZigBee module. With a Casambi module, it is possible to operate the lamp via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching the lamp on at specific times via a timer. ZigBee enables wireless communication via WLAN between a Smart Media device and existing home technology. Using ZigBee, lamps, electric shutters, heating and loudspeakers, among other things, can be controlled via voice control.
