## Description

The LDM Drop Move Uno Surface-mounted is a pendant lamp that can be adjusted in height by simply pulling on the lamp shade. In this way, the lamp can be continuously adjusted in its cable length between 50 cm and 200 cm at any time. Its light is focused by a frosted optical lens and emitted homogeneously and glare-free directly downwards. The lamp is available in the surfaces aluminum polished, aluminum matt, bronze, white matt and black matt. All elements of the lamp are always in the same finish as the lamp itself. On request, lamps are also available in all finishes with a upper topping with finish in aluminum polished, aluminum matt, bronze, white matt and black matt.

The cable length of the Drop Move Uno Surface-mounted is a maximum of 200 cm; special cable lengths of at least 50 cm are also available on request. This pendant lamp is offered in three versions: dimmable on site with a trailing edge phase dimmer, DALI dimmable or with integrated Casambi module. The DALI version requires a 5-core mains cable. With a Casambi module, the lamp can be operated by smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching and dimming several suitable lamps separately in groups.

When dimming the LDM Drop Uno Surface-mounted, the light colour of the integrated LED changes to a warmer tone (from 3,000 Kelvin warm white to 1,800 Kelvin extra warm white) due to the used Dim-to-warm technology. From the Drop series, LDM also offers multiple pendant lamps with two, three or four lamps (on request) and the Drop with a shortenable, height-determinable cable.
