Technical details

Country of Manufacture	 Czechia
Manufacturer	Brokis
Designer	Boris Klimek
protection	IP20
Scope of delivery	Leuchtmittel/Bulb
voltage suitability	110 - 240 Volt
Diameter in cm	25
material	glass, metal
dimming	dimmable on site
socket/light fixture	E27
switchability	pull switch
Power (max. Watt)	60 Watt
Dimensions	H 28 cm Ø 25 cm

Description

The Brokis Memory collection awakens the imagination and reminds us of a carefree childhood. The ceiling lights in different sizes, the wide range of colour options and a choice of finishes give this lighting experience a high degree of versatility. The illusion of inflated balloons is flawless, right down to the dangling cord with pull switch used to turn the light on and off. This is beauty in its simplest and most compelling form.

The Brokis Memory Ceiling 250 PC878 is a ceiling light with a diameter of 25 cm and a height of 27.5 cm. The glass colours triplex opal, grey, light pink, red, orange, amber, brown, yellow, apple green, turquoise and blue are offered. All glass colours are available with the surface in glossy or matt etched on both sides. The lamp can be switched on and off via a pull switch. This lamp is supplied as standard with a pull switch in white, on request it is also available in black. The Memory ceiling lamp 250 is operated with an E27 halogen lamp or LED retrofit.

The handcrafted production of the Memory follows the centuries-old tradition and experience of master glassblowers. The precise processing of mouth-blown glass gives all Brokis products a distinctive, durable character and outstanding quality. The glass shades are formed from several layers of molten glass, each of which is inspected by a master glassblower before being blown into the mould. Up to 70% of the quality is achieved at this stage of production. The triplex opal glass used to make the lamp shade is one of the highest quality materials used in the lighting industry.

Each light is shipped with a high quality paper envelope containing the installation instructions, white cotton gloves to handle the light gently, a certificate of authenticity and the BROKIS Small Catalogue. After opening the box, you will find a QR code that will take you to a short video showing you how to safely unpack and commission your new lamp, as well as detailed
