

Domus

Iris Wall Lamp

Technical details

Country of Manufacture	 Germany
Manufacturer	Domus
Year of design	1997
protection	IP20
Scope of delivery	Leuchtmittel/ Bulb
voltage suitability	110 - 240 Volt
Projection in cm	16
material	Lunopal, Textile, wood
dimming	dimmable on site
socket/light fixture	E27
Power (max. Watt)	75 Watt
shade color	white
Dimensions	H 24 cm B 24 cm

Description

The lampshade of the Domus Iris wall lamp opens upwards and is held by a rounded wooden element made of beech. The white shade of the Domus Iris wall lamp is made of Lunopal. Lunopal is a high-quality shade material that was developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The completely environmentally friendly material is UV-resistant, washable and does not yellow. The lamp is 24 cm wide, 24 cm high and has a projection of 16 cm. The Domus Iris has an E27 socket and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
