Description

The Arturo Alvarez Agasallo AG04-4-P pendant lamp consists of 4 lamps from the Agasallo series, which are suspended in different lengths from an decentralised canopy. The four lamps 1xAG104, 1xAG204, 1xAG304 and 1xAG404 are attached to a canopy with a diameter of 12 cm. Thanks to the decentralised canopy, the individual lamps can be installed independently of the power connection. The position of the individual pendant lamps in relation to each other can thus be determined by the customer. Thanks to the decentralised canopy, the multiple lamp can also be installed independently of the power outlet. This multiple lamp is available in white and grey. On request, the lamp is also offered in taupe and beige. The black cables of the lamp can be shortened if required.

The Arturo Alvarez Agasallo AG04-4-P is supplied with E27 sockets and can be operated with LED retrofits. The total height of this pendant lamp is 250 cm. The lamp shades of this pendant lamp consist of an extremely flexible stainless steel mesh, which was especially developed by the brand Arturo Alvarez for lamps. This stainless steel mesh is highly malleable, very resistant and compact.
