### Description

The Bover Nans Sphere S/80 Outdoor pendant lamp has an almost spherical lamp shade made of a hand-woven, synthetic polyethylene fibre. Its lamp shade has a diameter of 80 cm and is 76 cm high. The 200 cm long cable of this pendant lamp can be shortened if necessary.

The Nans S/80 Outdoor is available with a lamp shade in the colours red, brown and beige. The ceiling canopy is made of stainless steel and aluminum and always has a graphite-brown colour. The synthetic polyethylene fibre of the lamp shade is so resistant and weatherproof that this lamp is also suitable as an outdoor lamp. With a protection rating of IP65, the pendant lamp is dustproof and protected against water jets from any angle. The light is emitted downwards and sideways through the lamp shade. A diffuser made of polycarbonate ensures glare-free light emission.

The pendant lamp is operated with an integrated LED that has a colour temperature of 2,700 Kelvin extra warm white. The LED can be dimmed on site with a trailing edge phase dimmer. A DALI or 1-10 volt dimmable version is also available on request. In addition, a version that can be dimmed with a Casambi module by smartphone via Bluetooth is also offered on request. This optionally available version with Casambi module can be operated easily and intuitively via mobile devices using the free CASAMBI app (iOS and Android).

Cala Nans is a small cove in Cadaques (Spain), accessible only by footpaths or by sea. An unspoilt corner of the Mediterranean, where vegetation and the vigilance of an old lighthouse make this place a primordial spot where all you can hear is the sound of the sea and the birds flying over the coast. The Nans lamp is characterised by high-quality craftsmanship of the lamp shades and creates a true Mediterranean style.
