Description

The B.Lux Speers Outdoor Bollard is a bollard lamp and is suitable for mounting on an on-site foundation or paved surface. With protection class IP54, this outdoor lamp is protected against dust and splashing water from all sides. The bollard light is 85 cm high and has a projection of 16 cm. Its lamp head has a diameter of 11.5 cm.

The light is emitted by the Speers Outdoor Bollard directly downwards and is focused by a glass lens. This makes the lamp well suited for path lighting. The integrated light source is an LED with a colour temperature of 2,700 Kelvin extra warm white. The Speers Outdoor Bollard is offered in the surfaces white and black. Both surfaces are matt textured.
