

Foscarini

Caboche Plus Sospensione Media LED

Farbe

- transparent
- grey

Version

- LED dimmable DALI
- MyLight
- MyLight Tunable White
- not dimmable

Technical details

Country of Manufacture	 Italy
Manufacturer	Foscarini
Year of design	2005
Diameter in cm	50
cable length	320 cm
Power in watts	23 W
Colour rendering index (CRI / Ra)	>90
Luminous flux in lm	3200
color temperature (kelvin)	2.700 extra warm white
voltage suitability	230 - 240 Volt
canopy	Ø 21 cm
Dimensions	Ø 50 cm

Description

The Foscarini Caboche Plus Sospensione Media LED is a pendant lamp with clear polymethyl methacrylate spheres. Through these spheres, the light of the Caboche is emitted upwards and downwards. Due to the zigzag shape of the brackets, the light is diffused to the maximum without shielding it. Once the spheres are attached, the mounting brackets are no longer visible. The integrated LED light source offers a very high level of colour rendering and energy efficiency.

The canopy of the Foscarini Caboche Sospensione Media LED is 21 cm in diameter. The Caboche Sospensione Media LED is held by three ropes with a maximum suspension of 320 cm. A version of the light with a longer suspension is also available on demand. This is the medium-sized Caboche pendant lamp with a diameter of 50 cm and a height of 20 cm. It is available in the colours transparent or grey. Besides the colour also a MyLight, a MyLight tunable white a dimmable and a non-dimmable version are offered.

Foscarini MyLight MyLight is an intelligent system that allows you to control the light and adapt it to your personal needs.

It is easy to use: activate the Bluetooth function on your smartphone or tablet, download the free app and switch on your MyLight lamp. It is automatically recognised by the app and switched on or off or adjusted to brightness and colour temperature by the icon.

Open the Scenes tab to create the most diverse lighting compositions. Thanks to the practical timer function, the programmed scenes are automatically started and stopped even when your smartphone or tablet is switched off. Other family members and friends can also download the app and control the lamps autonomously. However, you decide on the extent of their access rights. Alternatively, you can also control your MyLight lamps with a compatible mobile switch (not included).
