## Supernova GT

### Oberfläche

- aluminum
- brass
- platinum
- black
- white

### Technical details

<b>Country of Manufacture</b>	 Germany
<b>Manufacturer</b>	Holtkoetter
<b>Designer</b>	Holtkötter
<b>Year of design</b>	2023
<b>overhang</b>	56,5
<b>Materials</b>	Aluminium
<b>height adjustment</b>	height adjustable
<b>Power in watts</b>	16 W
<b>LED #</b>	inclusive
<b>Colour rendering index (CRI / Ra)</b>	>90
<b>luminous flux</b>	2500
<b>color temperature (kelvin)</b>	2.200 - 2.850
<b>Protection class / IP rating</b>	IP20
<b>Contents of the package</b>	LED
<b>voltage suitability</b>	230 - 240 Volt
<b>dimming</b>	Push button dimmer on the lamp base
<b>lamp stand dimensions</b>	18 cm
<b>light head dimensions</b>	18 cm
<b>bulb exchange</b>	on site itself

### Description

With 2500 lumens and a colour rendering index of >90, the Holtkötter Supernova GT leaves nothing to be desired in terms of the light emitted. The lamp head, which can be rotated and swivelled in any direction, allows the light to be directed in any direction. The light rod of the Holtkötter Supernova GT can also be tilted by 15° - 60°. The touch dimmer with memory function on the base of the lamp allows the brightness to be continuously adjusted. When dimming, the light colour of the integrated LEDs changes to a warmer tone (from 2,850 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. If necessary, the LEDs can be replaced by the manufacturer. The Holtkötter Supernova GT is available in matt aluminium, anodised brass, platinum, white and black. In the anodised brass model, the luminaire rod is black; in all other models, the lamp rod and luminaire head have the same finish.
