## Supernova DW

### Oberfläche

- aluminum
- brass
- platinum
- black

### Technical details

<b>Country of Manufacture</b>	 Germany
<b>Manufacturer</b>	Holtkoetter
<b>Designer</b>	Holtkötter
<b>Year of design</b>	2019
<b>Wattage</b>	1 x 40 + 1 x 71 W
<b>LED #</b>	inclusive
<b>Colour Rendering Index</b>	>90
<b>Luminous flux in lm</b>	14700
<b>Color temperature in Kelvin</b>	2.200 - 2.900
<b>protection</b>	IP20
<b>Scope of delivery</b>	LED
<b>voltage suitability</b>	230 - 240 Volt
<b>Projection in cm</b>	71
<b>material</b>	metal
<b>dimming</b>	Push button dimmer at the light rod
<b>lamp stand dimensions</b>	42 cm
<b>light head dimensions</b>	42 cm
<b>bulb exchange</b>	on site itself
<b>Dimensions</b>	H 185 cm

### Description

The Holtkötter Supernova DW arched lamp has a lamp head consisting of two parts: an outer ring and an inner disc. The two parts of the lamp head each have an integrated LED. The LEDs can be operated and adjusted via a touch dimmer panel centrally located on the luminaire rod. The outer and inner rings can be switched together or separately and dimmed continuously. When dimming, the light colour of the integrated LEDs changes to a warmer tone (from 2,900 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. The last light setting used is saved using the memory function. As the inner and outer rings can be swivelled independently of each other, the light emission can be directed both directly and indirectly. The Supernova DW floor lamp from the German manufacturer Holtkötter is available in matt aluminium, platinum, anodised brass and black.
