

# Holtkötter

## Janus H

### Struktur #

- negro
- aluminio
- negro / latón

## Technical details

<b>País de la Fabricación</b>	 Alemania
<b>fabricante</b>	Holtkötter
<b>diseñador</b>	Holtkötter
<b>año</b>	2024
<b>materias</b>	Metall
<b>ajuste de altura</b>	altura ajustable
<b>Atenuación</b>	Sección de fase
<b>Potencia en vatios</b>	2 x 18 W
<b>LED #</b>	inclusive
<b>Indice de reproducción cromática</b>	>90
<b>El flujo luminoso en lm</b>	5400
<b>Temperatura de color en grados Kelvin</b>	2.200 - 2.850
<b>protección</b>	IP20
<b>Volumen de suministro</b>	LED
<b>entrada de tensión</b>	230 - 240 Volt
<b>cabeza del alumbrado masa</b>	18 cm
<b>reemplazo de la bombilla:</b>	en el sitio mismo
<b>Dimensions</b>	H 99 - 155 cm

## Descripción

The Holtkötter Janus H ceiling lamp has height-adjustable telescopic arms attached to the side of a rectangular ceiling canopy, which can be swivelled by up to 160° using joints. These swivelling telescopic arms make it easy to illuminate even large tables. The lamp heads, which can be continuously rotated and swivelled in all directions and contain a replaceable LED panel, allow the light to be individually directed. When dimmed, the light colour of the integrated LED changes to a warmer tone (from 2,850 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. With a light output of 5,400 lumens and a colour rendering index of over 90, the Holtkötter Janus H provides powerful light that can be emitted directly or indirectly as required. The Janus H ceiling lamp is height-adjustable from 99 cm to 155 cm by extending or retracting the telescopic arm. The ceiling canopy is 33 cm long, 6.2 cm wide and 3.6 cm high. The Janus H is available in the following surface textures: matt aluminium, black/brass anodised and black.
