

Foscarini

Havana replacement base for the ground-spike version

Technical details

País de origen	 Italia
Fabricante	Foscarini
Versión	Lucio Tierra

Descripción

The Foscarini Havana replacement base is a spare part for the Havana Outdoor Terra lamp. The spare part exclusively covers the respective base of the lamp. Three variants for the lamp are available: base, floor assembly and ground spike. The base is suitable for stable surfaces such as stone slabs or tiles. Both the ground spike and the floor assembly are let into the ground, whereby the ground spike can be moved as required.
